

White Line Engineering & Surveying

Precision in Every Dimension. Integrity in Every Project.

White Line is a premier multidisciplinary firm delivering high-accuracy surveying, drone scanning, 3D modeling, structural engineering, construction, and waterproofing services. Operating from Lebanon with project experience across the GCC and international markets, we combine technical precision with unwavering integrity.

Our Services

Surveying

Topographic, cadastral, and boundary surveys. DLRC coordination for official land registration across all Lebanese cazas.

Drone Scanning & Aerial Surveys

DGCA-permitted UAV photogrammetry, LiDAR acquisition, and construction progress monitoring.

3D Land Modeling

Digital Terrain Models, laser scanning, GIS mapping, and BIM-ready datasets using Pix4D, ArcGIS, and Agisoft Metashape.

Engineering & Design

Structural design with NL135 seismic compliance. OEA-certified plans for building permit approval.

Construction & Civil Works

Turnkey execution per Construction Law 646/2004. Permit coordination through OEA, GDUP, and municipalities.

Specialized Waterproofing

Membrane systems, injection technology, and remediation per ASTM and ISO standards. One-year guarantee.

Credentials & Standards

- OEA-registered engineers (Beirut/Tripoli)
- DGCA drone flight permits
- LIBNOR NL135 seismic compliance
- ASTM & ISO waterproofing standards
- Construction Law 646/2004 compliance
- 4-year zero-incident safety record
