

## Health, Safety & Environment

Our commitment to safety, quality, and regulatory compliance.

### 4-Year Zero-Incident Safety Record

White Line maintains a continuous record of zero work-related incidents and zero lost time due to errors. We follow the rules because we want our people to go home to their families every night.

### Safety Management

- Comprehensive risk assessments conducted before every project
- Mandatory PPE protocols enforced on all sites
- Regular safety training and toolbox talks for all personnel
- Incident reporting and corrective action procedures
- Compliance with Lebanese Labour Code safety provisions

### Regulatory Compliance

#### Lebanese Regulations

- Order of Engineers and Architects (OEA) registration
- Construction Law No. 646/2004
- LIBNOR Standard NL135 seismic design
- Decree 7964/2012 safety requirements
- DGCA drone operation permits

#### International Standards

- ASTM D7832, D5957, C957 (waterproofing)
- ISO 91.120.30 (waterproofing classification)
- Eurocode 8 (seismic design)
- French Norm PS 92 (structural design)
- EIA Decree 8633/2012 (environmental)

### Quality Assurance

- All engineering work certified by OEA-registered professionals
- Technical Control Office coordination for buildings above 10m/3 floors
- Products sourced from certified international manufacturers (Sika, Mapei, BASF)
- One-year guarantee on all engineering and waterproofing work
- Documented quality control procedures for every project phase

### Environmental Responsibility

- Environmental Impact Assessment coordination per Decree 8633/2012
- Waste management and site cleanliness protocols
- Material selection prioritizing durability and sustainability
